III NEED ANALYSIS

The process of revision of curriculum is to be carried out from time to time in keeping with the changing needs of the job market. The revision of the curriculum for post graduate diploma in Marketing and Sales Management was taken up to make the curriculum more logical and need oriented taking into account the sophisticated technological changes involved in the promotion of sales and marketing techniques. The field of marketing is the soul of business. The competitive market and fast changing techniques used in marketing have further enhanced the importance of marketing personnel. The Marketing and sales personnel should not only know the fundamentals of the business of concerned field but also require specialised knowledge in different related fields. Due to this reason, one elective paper has also been introduced so that specialised training may be imparted to students in the field of interest. It will also enhance the employment opportunities to diploma holders in the field of their interest and it is likely to produce better results. In this way, the candidate undergoing training in P.G. Diploma course in Marketing Management will be exposed to new techniques of the area and will be able to become a more effective decision maker.

IV PROFILE DEVELOPMENT

To assess the manpower needs and job competencies, an instrument was designed and sent to various organisations/industries. The response was not satisfactory. Therefore the job opportunities and competencies required were discussed in workshop. The persons from industries, higher educational institutes and diploma level institutes/polytechnics were invited for interaction in the workshop and the framework of the course was formulated. The detailed contents were then finalised and the curriculum was sent for feedback to industry people and institutes the views obtained were analysed and incorporated in the revised curriculum .
